

Performance characteristics

- **Database**
 - SQL-database
 - Multi-client-capable
 - Regulation of access rights for employees
 - Selection through sorted routines
- **Form designer**
 - All required forms, listings, labels and statistics
 - Printout or presentation on the screen
 - Modulation, add-on and creation of templates
- **General master data**
 - Seasons /collections
 - Countries
 - Currencies
 - Sizes
 - Terms of payment
 - Shipping- and packing- types
 - Free selectable attributes and administration of all master data
 - Colours with colour-cards
- **Personal master data**
 - Areas:
 - Customer/ CRM
 - Supplier
 - Sales representative
 - Employee
 - Prospect
 - Buyer- and major-buyer-groups
 - Production plants
 - Structure:
 - General data
 - Financial data
 - Sales data
 - Free selectable attributes
 - Additional addresses (supplier-address / address for account)
 - Branches
 - Contact person with informations for communication
 - Memory data with print on different forms
 - Customer-, supplier-, item-numbers with prices, rebates and EAN-nr.
- **Items**
 - Areas:
 - Items
 - Alias items
 - Lots / Assortments
 - Main group and goods group/ item group
 - Prices
 - Quantities
 - Colours
 - Sizes
 - Qualities
 - Care-instructions
 - Structure:
 - General data
 - Several sales prices for each item/ colour/ size
 - Special prices
 - Customer specific prices
 - Several suppliers with purchase price for each article/ colour/ size
 - EAN-system
 - Several pictures and delineations per item
 - Several worksheets per item
 - Collection-labels
 - Data domain for Online-shop
 - Budget administration
- **Product Data Management (PDM)**
 - Size measurement tables
 - Sketches, pictures
 - Item description
 - Care symbols
 - Monitoring of samples
- **Order Management and Inventory Management**
 - Order acquisition of different order types: by appointment, at call, block and branches and takeover from offering
 - Duplicate of orders
 - Inventory queries
 - Inventory informations with multiple warehouses
 - Inventory postings with valuation
 - Change in inventory and correction
 - External warehouse
 - Commission warehouse
 - Item availability
 - Inventory account
 - Quick-order entry
- **Area Management**
 - Initial allocation of selling points
 - Commission order or immediate invoice
 - Change in inventory automatically by sales reports
- Subsequent deliveries
- Call of actual stocks in stores
- Rate of stock turnover
- Sales rate
- Statistics of Main Merchandise Groups and Merchandise Groups
- **Planning**
 - Disposition list: item/ colour/ sizes with statement about:
 - Orders posting
 - Planned quantities
 - Inventory postings
 - Cover/ under-cover
 - Date of delivery with customer indication
 - Projection per sales and customer group due to planned quantities
- **Statistics**
 - Blockbuster/ down-and-out lists per item and customer
 - Customer backorder-list
 - Item report with profit margin
 - Order status sales-customer
 - Indication item-customer
 - Sales-item
- **Purchasing**
 - Generate orders to bookings
 - Suggestion of bookings
 - Bookings with worksheets, metrics, delineations, images, care-symbols etc.
 - Print tags
 - Print customer labels
 - Report about bookings with specific warehouse
- **Automatic monitoring of imports and ordering**
 - Monitoring of counter-samples
 - Approval of dates
 - Automatic resubmission
 - Container management
- **Reservation of goods**
 - Automatic reservation after different criteria
 - Dialogue reservation after items
 - Dialogue reservation after orders
 - Supply suggestion
- **Delivery notes / document bills**
 - Create delivery notes from bookings or from orders
 - Administration of parcels and automatic determination of charges and weights
 - Parcel stickers and shipping order
 - Storage locations with scales
- **Invoicing**
 - Create invoices from delivery notes or from orders
 - Monitoring of delivery notes
 - Management-report
 - Collective invoice
 - Invoice journal
 - Commission calculation
 - Volume of sales per item/ customer
 - Integration Finance
- **Return of goods**
 - Credit notes
 - Statistics of return of goods
- **Customs duty and Intrastat**
 - Declaration
 - Print of customs documents for export
 - Intrastat per diskette
- **Calculation**
 - Calculation schemes
 - Calculation with images, delineations
 - Handover calculation data to stock list
 - Pre- and after calculation
 - Order calculation
- **Project Management**
 - Offers, orders, delivery notes, invoices, bookings per customer
- **CRM**
 - Management of relationships with customers and other partners
 - Document Management create documents in fashion and/ or import them from other sources (also e-mails)
 - Use of templates (e.g. in WORD)
 - E-mails and option of mass mailings
 - Resubmission of dates and procedures
- **Organizer**
 - Organizer with dates, tasks, submittals, notes, project management etc.
 - Text modules
- **RFID**
 - Read, receive and send data
 - Scanning of incoming goods and returns
 - Outgoing goods via packing station
 - NVA/ SSCC Serial Shipping Container Code by Desadv
 - Inventory
- **Workflow**
 - Ad-hoc
 - Produce/ send emails with rules and terms based on a definite event
 - Tasks
- **Integration**
 - Integration ImPuls mobile
 - Integration Comeleo PDA
 - Connection to Koppermann PDA
 - Connection to Factoring companies
 - Import and export function for transfer of data
 - Integration EDI + XML
 - Tool for analyses with graphical and tabularly depiction (OLAP)
 - Connection telephone (TAPI)
 - Archiving all customer/ supplier forms
 - Connection to customs software
- **Integration MICROSOFT-products**
 - WORD
 - EXCEL
 - OUTLOOK
- **Internet**
 - Business to business, online / offline
 - Business to customer
 - Internet-shop
- **Production**
 - **Master data**
 - Material with technical information, worksheets, pictures, roll of fabric and lots
 - Bill of material per item with allocation
 - Supplier and production plants
 - **Material logistics/ Purchasing**
 - Calculation of requirements with order book, disposition, projection and covering
 - Materials reservation from production order
 - Monitoring with reminder
 - Receipt of incoming goods from orders
 - Contractor's store with evaluation
 - Transfer and correction of warehouse
 - Inventory of materials
 - Materials control with stock sheet
 - **Production order**
 - Create production order from order books (automatic or manual)
 - Production order with metrics, delineations, images, care-symbols etc.
 - Material requirements
 - Print tags,
 - Print care labels
 - Automatic monitoring of production order
 - Report of production order with specific warehouse
 - **Contract processing work**
 - Material specifications for customs duty
 - Print list of materials
 - Correction of issuance of materials and print packing list
 - Pro-forma invoice
 - Customs documents
 - List of backlogs
 - **Production planning**
 - Management and control of resources and capacities
 - Bill of materials per item
 - Scheduling of orders
 - Calculate date of delivery
 - Indication for sales department for delivery time
 - Overview of reposition time and free capacity
 - Material requirements planning and resources planning (MRP)
 - Calculation of MRP planning (APS)
